EDUCATION

B.Tech in Information Technology – Network and Information Security

2024 – 2028

Netaji Subhas University of Technology, Delhi

CGPA: 8.34 / 10.0 (Till 4th Semester)

JEE Mains – **98.64 Percentile**

TECHNICAL SKILLS

Languages: Java, C/C++, Python, JavaScript

Frameworks & Libraries: Node.js, Express.js, React.js

Databases & Cloud: PostgreSQL, MySQL, MongoDB, Google Firebase, Render, Vercel

Tools & Integrations: Git/GitHub, Docker, Google Generative AI (Gemini API), OAuth 2.0, JWT, REST APIs

Problem Solving: 450+ DSA Problems Solved Across Platforms (LeetCode Rating: 1600+)

CS Fundamentals: OOPS, DBMS, Computer Networks, Operating Systems, DSA

PROJECTS

SAJAG – National Disaster Readiness Platform | Node.js, PostgreSQL, Docker, Gemini AI

[GitHub](#) | [Demo](#)

- Engineered a centralized, real-time tracking platform for the NDMA to monitor disaster trainings across India, led a 6-member team to secure **1st Runner-Up (National Finalist)** at **Smart India Hackathon 2025**.
- Architected a scalable backend fully containerized via **Docker**, developing automated bulk data ingestion pipelines utilizing **csv-parser** for high-volume handling.
- Integrated **Mapbox API** and GeoJSON for interactive spatial visualization and leveraged **Google Generative AI** for predictive analytics and data summarizer. Built secure **JWT-based RBAC** across 4 administrative tiers.

Career Disha – AI-Powered Career Counseling Platform | Node.js, React, Firebase, Gemini API

[GitHub](#) | [Demo](#)

- Engineered “Career Dost,” an interactive AI chatbot leveraging the **Gemini API** and prompt engineering to deliver real-time, personalized career counseling and aptitude-based recommendations.
- Implemented secure user authentication via **Google OAuth 2.0** with one tap sign-in and integrated **Google Firebase** to efficiently manage and store structured user profile data and assessment results.
- Built a comprehensive college discovery module aggregating detailed information about 100+ institutions, enabling students to compare and explore options in a single unified platform.

Society Management System | Node.js, Express.js, MySQL, Razorpay API

[GitHub](#)

- Designed and developed a robust **RESTful API** backend; architected an optimized **MySQL** database schema to manage residents, automated billing, and maintenance complaint workflows.
- Integrated **RazorpayX Payment Gateway** for seamless online dues collection, automated payment verification, and real-time transaction tracking for society members.

LEADERSHIP & ACHIEVEMENTS

Team Leader – Smart India Hackathon 2025 (SIH25258)

December 2025

Ministry of Education, Government of India | **1st Runner-Up (National Finalist)**

- Led a cross-functional 6-member team through the national-level SIH competition, coordinating end-to-end system architecture and task delegation under tight deadlines to secure **1st Runner-Up**.

Team Leader – Xerocrypt CTF

December, 2025

Netaji Subhas University of Technology, Delhi | **3rd Place**

- Led a team in a highly competitive Capture The Flag (CTF) event, successfully solving complex cryptography and security challenges to secure **3rd Place** out of **150+ competing teams**.

Class Representative

2nd Semester – Present

Netaji Subhas University of Technology, Delhi

- Elected by more than 50% votes, serving as the primary liaison between students and faculty for a cohort of **72 students**, resolving academic concerns and coordinating class activities.
